# Lighting

**Highlight your booth and your products !**

Our kits are all-inclusive.  
Pick up the best package for your space.

All our kits include the slings overhead electrical cables and installation.  
Please, keep in mind that the power supply is not included in the kit. The electrical cables will be plugged on the electrical box on the ground so it has to have the sufficient Kw.

# Slings

**We provide suspension system for you to create your own overhead display!**

## Slings:

Essential for suspending equipment such as lighting truss or signage.

This 6 mm steel cable is attached to one or more framework points using steel shackles and ends in a loop. The number of suspension points depends on the weight and size of the equipment to be suspended.

	Price per point
1 to 5 points	133 € ex. VAT
6 to 10 points	129 € ex. VAT
Over 10 points	124 € ex. VAT

## Power supply on support cables:

A power supply line can be set between the support cables and the switch box on the ground to power the spotlights

*Choose the plug you need at the end of the cable.*

- 16A (max 3kW) .....114 € ex.VAT
- 32A P17 tetra-phase .....174 € ex.VAT

# Restrictions

Every project is subject to validation. Its feasibility is not guaranteed.

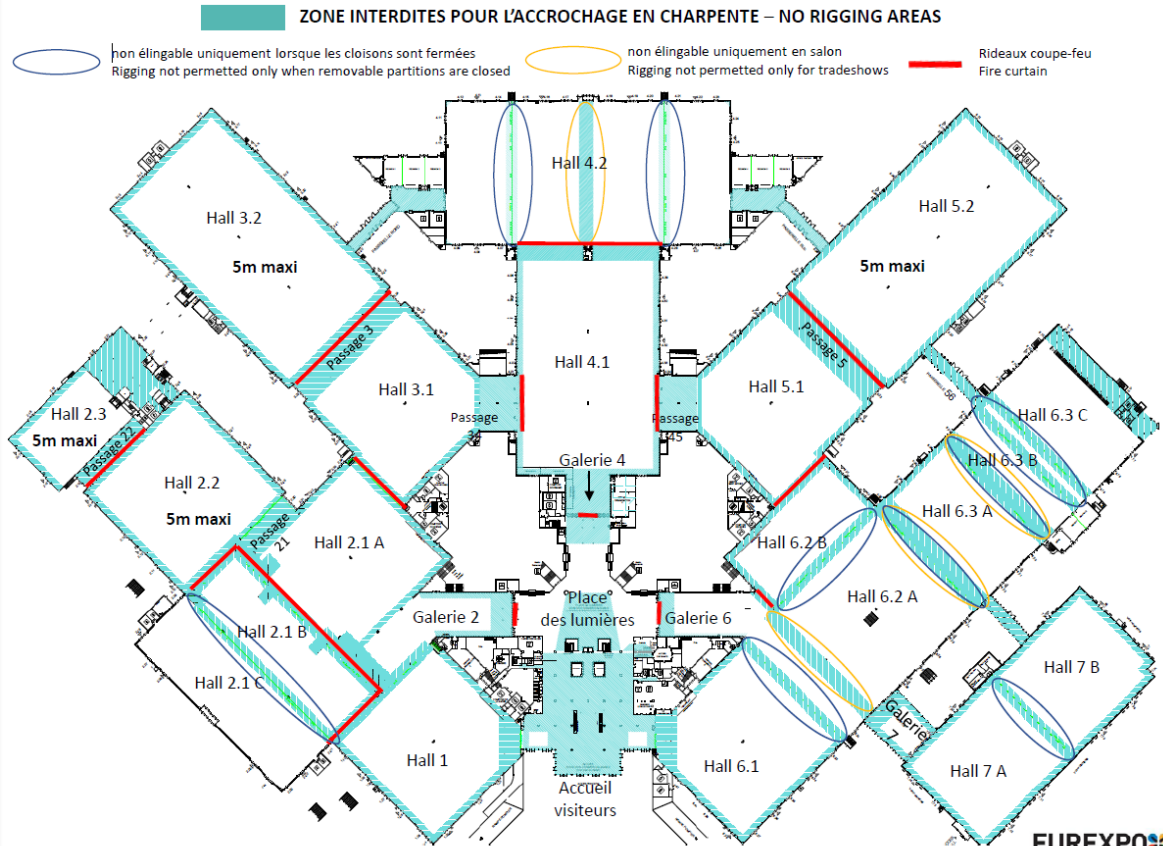

## Electrical connection :

- Overhead electrical cables are supplied without being connected to the electric box, if ordered out of a lightning kit or without spotlights.
- Cables supplying more than 3kw come with a P17 socket.

## No-rigging zones :

## EUREXPO guaranty:

- ➔ Installation of the services before your arrival
- ➔ On-site team with expert knowledge of the exhibition center
- ➔ Assistance right up to the end of the event
